

# The Ohio Medical and Surgical Journal, 1876, Vol. 1 (Classic Reprint)

J H Pooley

Excerpt from The Ohio Medical and Surgical Journal, 1876, Vol. 1 The subjective symptoms do not differ from those of ordinary laryngeal catarrh. There is frequent desire to hawk or clear the throat of the accumulated mucous, impairment of voice, varying from slight hoarseness to complete aphonia, sometimes a short hacking cough, and an absence of pain unless the pharynx is involved. About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books. Find more at [www.forgottenbooks.com](http://www.forgottenbooks.com) This book is a reproduction of an important historical work. Forgotten Books uses state-of-the-art technology to digitally reconstruct the work, preserving the original format whilst repairing imperfections present in the aged copy. In rare cases, an imperfection in the original, such as a blemish or missing page, may be replicated in our edition. We do, however, repair the vast majority of imperfections successfully any imperfections that remain are intentionally left to preserve the state of such historical works.
